EL
Hotel Mirador
COMING SOON

“El Mirador, the true temple of the senses, is reopening its doors to become a four-star hotel that will illuminate your stay from start to finish.”

El Mirador Hotel is the most sophisticated and avant-garde project of the Abades group to date, as it is a multifaceted space that welcomes both quiet and comfortable rooms in which to honor your senses, as well as (non-conventional) events and conventions that make history and go down in history.

Besides all this, El Mirador is a perfect little hideaway, conveniently situated in Loja, it is connected with some of the most picturesque Andalusian cities like Granada, Córdoba, Jaén, Úbeda or Baeza offering you a wide range of possibilities that you won't be able to find anywhere else.

EL Mirador *****

From the **LAND**

From the moment you arrive at El Mirador and step into the first and second floors, those natural colors and the unique texture of the earth create the sensation of finally being on solid ground; in a space where you live, touch, feel, **look** ...

EL

...And the views will elevate you, at the top of the lookout point, where its panoramic terrace takes your breath away thanks to the endless lojeño landscape.

Where to **LOOK** and **ADMIRE**

We don't all see life in the same way, but we do all love to look, see, touch, hear, and feel.

El mirador is a source of real inspiration with lakes, gardens where you can lose yourself and a lookout point suspended in the air where you can look out to the edge of the world.
